PROFESSIONAL EXPERIENCE

EXPONENT, REFERRALS, REMOTE

Product Manager Coach, January 2019 – May 2021

- Taught product management skills covering product sense and execution
- Grew a personal line-of-business operating entirely on word-of-mouth with no advertising
- Received 100% positive feedback with significantly higher job-placement for clients

FACEBOOK, MENLO PARK, CA & LONDON, UK

Product Manager, August 2015 – April 2018

- Empowered engineers to solve the most urgent problems, aligned cross-functional teams on roadmaps, and defined shared success with internal + external partners on 4 teams:
- Workplace: Shipped platform for bots, authenticated previews, Group/account management
- Maps: Migrated maps infrastructure to programmatically suggest OpenStreetMap edits & worked with local mappers to kick off machine vision + FB crowdsourcing contributions
- Pages: Shipped configurable call-to-action buttons on Pages
- Profile: Removed 40+ features from Profile and simplified editing

COMRSE, SEATTLE, WA

Product Manager, August 2014 – December 2014

- Shipped a management system to automatically generate, target, and run ads from 1-click e-commerce catalog import
- Drove weekly feature development as a technical conduit between CEO, designer, and engineering team as the first Product Manager in the company
- Wrote a complete frontend re-architecture in ember.js while we were hiring a new UIE

MICROSOFT, BELLEVUE, WA

Program Manager Intern, May 2014 – August 2014

- Defined ship criteria and performed data analysis for various frontend product teams on Bing
- Quantitatively researched usage of existing features to drive product roadmaps
- Led a market segmentation project that informed key strategy investments for 2015

MIT LINCOLN LAB, LEXINGTON, MA

Software Engineer Intern, May 2013 – August 2013

- Improved algorithm speed for a passive radar detection system >100x to reach real-time
- Designed an embedded system to control an ADC system inside passive radar nodes

AIR FORCE INSTITUTE OF TECHNOLOGY, DAYTON, OH

Embedded Systems Engineer Intern, May 2012 – May 2013

- Implemented two operating systems (C++, FreeRTOS) for a satellite development platform
- Wrote a web control frontend for satellite control
- Led student design teams through integrating their satellite payloads with the architecture

EDUCATION

PURDUE UNIVERSITY, WEST LAFAYETTE, IN

Bachelor of Science in Computer Engineering, minor in Economics

- GPA: 3.5
- Honors: Deans List, Honors Program, Presidential Scholarship, Engineering Scholarship

ADDITIONAL PROJECTS
