## Objective

Obtain a summer internship where I can apply technical, communication and leadership skills to difficult problems.

## Education

**Purdue University** **May 2015**  
Bachelor of Science in Computer Engineering, minor in economics  
GPA: 3.81/4.0  
Honors: Deans List, Honors Program, Presidential Scholarship and Computer Engineering Scholarship

## Skills

C, C++, JavaScript, Python, Bash, MATLAB, freeRTOS, Arduino, Web application development/deployment.

## Projects

**Course Butler** **Summer 2013**  
*Web application (coursebutler.com)*

- Founded a service to notify students when seats open up in full classes
- Built with meteor, node.js, mongoDB, python web scraper, and twitter bootstrap

**Outfitly** **Summer 2013**  
*Web application (outfit.ly)*

- Co-created a social shopping experience for outfits, Backbone.js and Parse backend

**Moments** **Spring 2013**  
*iOS application (getmoments.co)*

- Voted crowd favorite at MHacks (36 hour hackathon) with team of 4 students

## Experience

**MIT Lincoln Laboratory** **Summer 2013**  
*Undergraduate Fellow*

- Constructed C++ software components for a passive radar system
- Optimized proof-of-concept algorithms to allow them to run in real-time

**Air Force Institute of Technology** **May 2012 – May 2013**  
*Software Engineering Intern*

- Developed embedded satellite software in C++
- Programmed the frontend and backend of a website to control satellites with twitter bootstrap
- Taught interactive software design classes to graduate students

**Hometown Fireworks** **2009 – 2011**  
*Location Manager*

- Implemented sales strategies that increased net sales by \$50,000

## Activities

**Purdue Hackers** **March 2013 – Present**  
*Founding President*

- Encouraging hacker culture and networking at Purdue through small and large scale events

**BoilerMake** **August 2013 – Present**  
*Executive Committee*

- Organizing a hackathon at Purdue with 400+ students and \$80k+ in funding

**Sigma Tau Gamma** **March 2013 – Present**  
*Recruitment*

- Deliver sorority presentations and perform interviews to select men of high character

**Autonomous Aerial Vehicle Team** **August 2012 – Present**  
*Software Development*

- Prototyping an autonomous Quadrotor for rapid detection of explosives

**Engineering Honors Program** **August 2012 – Present**  
*Peer Mentor*

- Guide freshman honors engineers through the transition from high school to college

**BEST Robotics** **2010 – 2011**  
*Team Founder & Captain*

- Fabricated a robot to operate in a simulated production facility, 17<sup>th</sup> in world championship
